MyCall RECORD MANAGEMENT SYSTEM

XYZ Co. is in mess. Papers and documents cover most space. It is impossible to find important papers in time. Business growth suffers as the space for work crunches...

Well wishers mention
MyCall

MyCall promptly come, review record situation, consult. They come back with full team.

Papers are segregated, unstapled, cleaned and torn ones glued. The papers are then collated, indexed and put to earmarked files which are bar coded then put in boxes

Papers and files for archiving are put in orange top boxes. Papers for scanning and digitising go to the blue top boxes. Then these boxes are bar coded

Cartons are loaded onto dedicated trucks for off site transfer to MyCall facility

3000 papers scanned and digitised for any time retrieval either on media or web.
Use information at your call through MyCall.

You get back your required document when you most need it physically or digitally as per your call (You say it MyCall)

Clean office becomes again the hub of activity and staff works with new found vigour to drive growth

All this for

₹100 per month only
